

Dear FCC,

Please continue regulating broadband service. Again our consumer independent rights are under attack. Shades of Little Abner all over again. Do we want Ma Bell to again take over? We must keep independent companies in the true open market!

Please, please do not stifle our rights as consumers to enjoy independent service for broadband. We enjoy top service from our local ISP Sonic! We also need access to high speed DSL lines from our independent service provider. Do not vote to exclude independent ISPs from access to DSL.

I urge you, there are many consumers that are unaware of possible ramifications of the Bell South's petition. Please vote against any changes in the FCC regulation.

Sincerely, Mrs. B.J. Yeager
